

THE RIVER OF NO RETURN- IDAHO'S WILD AND SCENIC SALMON RIVER

Idaho's River of No Return accesses the most pristine and untouched terrain in the US, slicing through the 4.7 million acre Frank Church River of No Return Wilderness Area, the largest road-less area in the country. The River of No Return is famous for its large sandy beaches for camping, warm water for swimming, great trout fishing, fun and easy whitewater, and the best hot spring in the Pacific Northwest. No river displays all these characteristics quite like the Salmon's River of No Return. The River of No Return has recently become famous as the best stand-up paddle board river trip in the world for its warm water and fun wave trains.

Often called the River of History, the river corridor is chock full of historic miner's cabins, homesteads and Shoshone Sheepeater and Nez Pierce Indian pictographs. The early river runners called the Salmon River the "River of No Return" because the wooden scows run in the late 19th and early 20th century were scrapped at the end of their journey and used to build many of the cabins you see in the canyon. But the truth be told the Salmon is in fact a river you'll want to return to time and time again, and in fact not want to return home at the end of your adventure.

AWARD-WINNING RIVER ADVENTURES SINCE 1953

Middle Fork River Expeditions has been in business for over 60 years and that is no coincidence. MFRE was chosen as one of the top 3 river outfitters in the world by National Geographic Adventure magazine in 2008 and 2009. We focus on our guests experience to not just see the river from a distance, but to experience it intimately with the leadership of experienced guides. With over 70% of our guests as past clients or referrals from past river travellers we guarantee a world-class river adventure. Our mission is to allow river travellers the opportunity to unplug from modern society and reconnect to oneself, family, and friends through nature's lens. This adventure allows you to have a digital detox from technology and reconnect to a more simple and fulfilling pace of life. There is no Wi-Fi in the wilderness, but we promise you will find a better connection.

Our equipment is specially designed for wilderness whitewater rafting, and offers mild and wild boat choices (oar boats, paddle boats, inflatable kayaks and stand up paddle boards). We also bring along a historic wooden handmade river dory on most departures. Our river guides are seasoned professionals, licensed by the state of Idaho and First Aid and Swiftwater Rescue V certified. They are expert river runners, magnificent cooks, great storytellers, and knowledgeable, helpful outdoorsmen and friends.

Join Middle Fork River Expeditions for a magical wilderness river vacation this summer!

ITINERARY

☞ Please **arrive in Salmon, Idaho the night before the trip begins**. Salmon is a 5-hour drive from Boise and a 2-hour drive from Missoula. We have a pre-trip orientation at the Stagecoach Inn (208-756-2919) at 7:30pm the evening before the trip begins. We will get acquainted, answer questions, and have a short orientation to show you how to pack the waterproof gear bags we provide for your personal gear. *Please arrange with River Shuttles (208-756-4188) to shuttle your vehicle from the Stagecoach Inn to Carey Creek, which is the take-out for the river. Please note lodging at the Stagecoach Inn is arranged on your own.*

DAY 1

We meet at 7:30am at the Stagecoach Inn for a 2-hour bus ride to the Corn Creek put-in for the Salmon River of No Return. We will stop after 45 minutes to get last minute items (fishing licenses, beer, sunscreen etc.) at the North Fork Store. Upon launching our rafts at Corn Creek, 3200 feet above sea level, we journey into the pristine heart of the Frank Church River of No Return Wilderness Area. We will encounter Killum and Gun Barrel rapids today, which are both easy class III wave trains. This river calls to adventure seekers, who can choose between the paddle raft, inflatable kayaks or stand-up paddle boards. Or you can ride comfortably on an oar raft in our luxurious “Queen of Sheeba Paco Pad Couch” and take in the scenery. The fishing is excellent for novice and experienced anglers alike. On trips in July and August, warm air and water temperatures encourage frequent refreshing dips in the river. Evenings find us relaxing by the campfire, playing horseshoes, listening to the guides sing and play guitar and watching for shooting stars.

DAYS 2 ~ 5

Each day brings new discoveries: exciting rapids like Black Creek, Big Mallard, Bailey, 5 Mile, Split Rock, Elkhorn and Growler rapids, historical sites such as Buckskin Bill’s homestead and Jim Moore’s place (maybe you’ll find the fortune he buried in the hillside!), and the much anticipated Barth Hot Springs. Avid hikers may enjoy a challenging hikes to Rabbit Point or Indian Creek, where the beautiful views are well worth the effort of getting there. We will stop and visit with several families that live along the river year round and they will share their stories of living “off the grid” in the wilderness and take us on a tour of their homesteads. We may get the chance to try on bear, bobcat and wolf head dresses at our stop at Yellow Pine homestead.

DAY 6

We float for 5-6 miles this morning after running challenging rapids like Chittam and Vinegar Creek and arrive at the take-out at Carey Creek around 9-10am. Please have your car shuttled from the Stagecoach Inn in Salmon to Carey Creek with River Shuttles (208-756-4188). The cost is ~\$360 plus \$50 gas. The drive from Carey Creek to Boise or Missoula takes 5-6 hours. Do not schedule any flights before 7pm this evening. A good option is to drive 2 hours and overnight in McCall, and drive the remaining 3 hours the next morning to Boise for flights after 1pm. The Super 8 in McCall (208) 634-4637 has clean rooms or the Hotel McCall (866-800-1183) is more expensive and a very nice small luxury hotel in heart of town.

WHAT TO EXPECT

Expert Leaders

Middle Fork River Expeditions attracts gifted guides for whom leading trips is their passion. Middle Fork River Expeditions guides positively elevate your experience by being educators, companions, and the best of friends. Most MFRE guides have 10 or more years experience on rivers and all are First Aid Certified and licensed by the Idaho Outfitters and Guides Licensing Board.

River Craft Options

MFRE prides itself in offering more river craft options than any other company on the river. We rotate guests into various river craft depending on your desire for the day. Most guests ride in our oar powered rafts. For the more adventurous we run a paddle raft, no experience required as your guide steers at the stern while you and other guests paddle up front. When water levels permit (usually July thru Sept only) you can try out our single inflatable kayaks or an inflatable stand up paddle board for thrill seekers. On some departures when water levels are sufficient, we bring a 18' historic wooden dory to ride the rapids.

River Requirements: Minimum age is 12 in May/June, and 5 in July and August. Please note, all participants must be able to swim, be in good physical shape and be able to self rescue.

Hiking & Hot Springs

There is plenty of time and numerous opportunities to hike during your trip. Visit Barth Hot Springs, known as the best hot spring in the Pacific Northwest; Sue and Greg Metz at Yellow Pine homestead, Doug and Phyllis Tims at Campbells Ferry homestead; Jim Moore's Place an early day prospector and trader; Lemhi China Bar where from 1882 to 1884 oriental miners worked this bar extensively and Five Mile Bar the home of the river's most famous resident, "Buckskin Bill".

Fishing

The River of No Return has some great fishing opportunities. Fishing is for cutthroat trout, rainbows and small mouth bass. An Idaho State fishing license is required and may be purchased in Salmon, Idaho before the trip. Kids 14 and under can fish without a license. Spinners or Fly Rods work. It is not catch and release so we can eat the fish if you wish. Kids 14 and under can fish with no license. To get your license in advance, go to <https://id.outdoorcentral.us/>.

Camping

This is one of the best parts of the trip, to be lulled to sleep by the sound of the river. We provide all camping gear for you, including a large rectangular sleeping bag, 2" Paco sleeping pad, pillow, 4-man tent (for 1 or 2 people only), rain gear tops and bottoms and all camp equipment. In the evening, we have chairs to relax in for meals and around the campfire. We bring along a wilderness porta-potty and place it in a private place with stunning views. We practice Leave No Trace camping ethics, so you are sure to learn a lot about this on the trip and be able to take some of these new skills home with you.

Bathing and Swimming

The River of No Return is a very pristine river and there is no bathing allowed in the river and all bathing must be done above the high water mark, at least 100 feet from any water source and with biodegradable soap. We bring along a couple of sun showers for you to use if you wish. We also have collapsible buckets that you can fill with hot spring water after soaking and can lather up away from the hot spring and have a friend gently pour it on your head. There are some great swimming holes and rock jumps on the river that are always optional. No diving is allowed and life jackets must be worn at all times when swimming. As this is a free flowing snowmelt river drainage, the water temperature is cold in May/June (45-55F) for swimming, refreshing in July (65-75F), and comfortable in August (75+F).

Food

We provide healthy and delicious meals, accompanied with lots of salads, fresh fruits and vegetables. We also use as much organic produce/products as is available in central Idaho. Our goal is to have you eat healthy meals so that you feel good and refreshed during the day with lots of energy for fun in this remote wilderness setting. Vegetarians, Gluten Free and Paleo diets welcome and meat eaters alike. There are also always snacks available during the day. Our past guests rave about our menu and dutch oven delights.

Drinks

We offer drinking water at all times as each raft has a water cooler as well as Gatorade crystals during lunch. For evening we provide soda such as Coke, Diet Coke, Izzie and San Pellegrino. We provide limited (1-2 glasses) red and white wine in the evenings. We do not provide beer and you are free to bring some, just make sure **beer is in cans only**. For those who want more than a couple of glasses of wine at night, you can bring more wine if you wish and glass is ok. Hard liquor can be brought in glass as well.

Weather

Idaho weather can be variable and vigorous. So come prepared with **warm and cold weather** clothing. There is no such thing as bad weather if you bring the right clothing. Synthetics are best for layering and keeping you warm in all weather conditions. Weather during the daytime is 70-95F and evenings 50-60F. The easiest way to think of river trip clothing is having both daytime "river" clothes which are synthetic and dry camp clothes which are cotton and more comfortable. The daytime clothes will be wet and your camp clothes will be dry. Have a back up set for both and you will be very well prepared. Below is our recommended clothing and equipment list. If you bring what's on the list you will be all set for the trip.

Clothing and Equipment List

We Supply

- Large rectangular sleeping bag (rated 20F)
- 2" thick sleeping pad
- Pillow (this is a camp pillow- 10" x 12", so if you want a full sized pillow please bring it).
