

THE MAIN SALMON RIVER- IDAHO

Idaho's rivers access some of the most pristine terrain in the country. They are home to abundant flora and fauna, an impressive network of hiking trails, and some of the country's best whitewater. No river displays all these characteristics quite like the Main Salmon. The Main Salmon is the longest undammed river in the U.S., and also boasts the second deepest canyon. The Main Salmon offers free-flowing Class III whitewater that's great for any age and experience level, big sandy beaches perfect for camping and playing, beautiful mountain scenery, abundant wildlife, and a natural hot spring are all hallmarks of the Main. Perhaps inappropriately dubbed the "River of No Return" by early river runners, the Salmon is in fact a river you'll want to return to again and again.

Trips are 4 days of exciting river rafting, wilderness camping, fine fishing, and visiting historic homesteads along the way. Our equipment is specially designed for wilderness whitewater rafting, and offers mild and wild boat choices (oar boats, paddle boats, inflatable kayaks and stand up paddling surf boards!). We also bring along an 18 foot Wooden Dory named Hen Wen and fishing drift boats on most departures. Our river guides are seasoned professionals, licensed by the state of Idaho and First Aid Certified. They are expert river runners, magnificent cooks, great storytellers, and knowledgeable, helpful outdoorsmen.

the waterproof gear bags we provide for your personal gear. *Please note flight from Boise to Salmon and lodging at the Stagecoach Inn is arranged on your own.*

DAYS 1-3

We depart Salmon at 7:30am by bus for the 2 hour drive to Corn Creek. Upon launching our rafts at Corn Creek, 3200 feet above sea level, we journey into the pristine heart of the Frank Church Wilderness or No Return. Each day brings new discoveries: exciting rapids like Salmon Falls, Big Mallard and Growler, historical sites such as Buckskin Bill's homestead and Jim Moore's place (maybe you'll find the fortune he buried in the hillside!), and the much anticipated Barth Hot Springs. We stop at Yellowpine Bar and visit with Greg and Sue who show us how they live off the grid year round. A stop at Campbell's Ferry brings us visit with Doug and Phyllis Timms, whom are writing a book about Campbell's Ferry and will teach us about the human history of Cambell's Ferry. Avid hikers may enjoy a challenging climb to Rabbit Point, where the beautiful views are well worth the effort of getting there. The fishing is excellent during these days, and on trips in July and August, warm air and water temperatures encourage frequent refreshing dips in the river. Evenings find us relaxing by the campfire, playing horseshoes and listening to the river and watching for shooting stars!

DAY 4

We float for 5-6 miles this morning and take a 11am flight by Cessna 5-9 seater airplanes to the Boise or Salmon Airport. We need at least 3 riders to get a seat rate for each destination. We should arrive by 12-2pm so schedule your flight after 3pm from Boise. If you drove to Salmon for the meeting and did not drive we can fly you back to Salmon instead of Boise, just let us know. The cost for these flights are not included in the trip price.

WHAT TO EXPECT

Expert Leaders

Middle Fork River Expeditions attracts gifted guides for whom leading trips is their passion. Middle Fork River Expeditions guides positively elevate your experience by being educators, companions, and the best of friends. Most MFRE guides have 10 or more years experience on rivers and all are First Aid and Swiftwater Rescue Certified, and licensed by the Idaho Outfitters and Guides Licensing Board.

Boats & Rapids

The Main Salmon rapids are rated 1 to 3 on a scale of 1 to 6. You'll run these rapids with the aid of experienced, professional, licensed guides. Most guests ride in our oar powered self-bailing rafts. For the more adventurous we run a paddle boat, no experience required as your boatman steers at the stern while you and your newfound friends paddle. And when water levels permit (usually in July and August only) you can try out our one-man inflatable kayaks. We also bring along an inflatable stand up paddle board to try around camp and in some of the flatwater sections. We bring on some departures a wooden dory when we have at least 12 people booked on a departure. We will rotate in/out of all boat types throughout the trip. Of course the Stand Up Paddle Board is optional!

River Requirements: Minimum age is 12 in June, and 5 in July and August. Please note, all participants must be able to swim, be in good physical shape and be able to self rescue.

Hiking & Hot Springs

There is plenty of time and numerous opportunities to hike during your trip. Among the river's points of interest are the Golden Eagles nestled in the ledges above Little Squaw Creek; Barth Hot Springs where the early scow captains soaked their tired muscles; Campbells Ferry Pack Bridge; Jim Moore's Place an early day prospector and trader; Lemhi China Bar where from 1882 to 1884 oriental miners worked this bar extensively and Five Mile Bar the home of the river's most famous resident, "Buckskin Bill".

Fishing

The Main Salmon has some great fishing opportunities. Fishing is for cutthroat trout, rainbows and small mouth bass. An Idaho State fishing license is required and may be purchased in Salmon, Idaho before the trip. Kids 14 and under can fish without a license. Spinners or fly rods work well.

Camping

This is one of the best parts of the trip, to be lulled to sleep by the sound of the river. We provide all camping gear for you, including sleeping bag, 2 pads, pillow, 4-man tent, rain gear tops and bottoms and all camp equipment. In the evening, we set up a camp and have chairs to relax in for meals. We bring along a wilderness porta-potty and place it in a private place with stunning views. We practice Leave No Trace camping ethics, so you are sure to learn a lot about this on the trip and be able to take some of these new skills home with you. The Main Salmon is a very pristine river and there is no bathing allowed in the river and must be done above the high water mark with biodegradable soap.

Food

We provide healthy and delicious meals, accompanied with lots of salads, fresh fruits and vegetables. We also use as much organic produce/products as is available in central Idaho. Our goal is to have you eat healthy meals so that you feel good and refreshed during the day with lots of energy for fun in this remote wilderness setting. If you would like a copy of our menu please call us. Vegetarian's welcome and meat eaters alike! There are also always snacks available during the day.

Lodge to Lodge Trip Accommodations

River of No Return Lodge - Built in the mid-1980s, the River of No Return Lodge is located 18 miles below Corn creek on the Main Salmon River at Smith Gulch. The lodge offers accommodations to guests participating in various activities on the river including steelhead fishing, rafting, and hunting. Each cabin has a shower in the bathroom and the rooms have comfortable beds (no bunks). Propane

heaters keep the cabins warm and cozy. The lodge does not have electricity—light is supplied by propane lamps, so be prepared to have a flashlight handy at night when the lights go out. The main lodge is very spacious and comfortable with large sectional couches and books on history to enjoy while relaxing. The dining area is very rustic with a large dining table that seats sixteen guests and a smaller round table that seats eight—great for cards after dinner! Also located at the lodge is the historically registered Blacky Foster Cabin. Built in the mid 1900s this cabin is also known as the Johnny Briggs cabin and was lived in year-round for hunting, trapping, fishing, and mining.

Whitewater Ranch -Located 21 miles downstream from River of No Return Lodge, Whitewater Ranch on Little Mallard Creek was homesteaded in the early 1900s by Eugene Churchill. The ranch has a turn of the century Pelton wheel hydroelectric plant, which generates power for the facility. In some very dry years, Little Mallard Creek may not supply sufficient water to operate the plant, but we normally expect to have electricity when we stay here. There is a dining lodge with several rooms and a bath on the second level. Two modern cabins with two sleeping rooms and a shared bath in each cabin are part of the accommodations. The original two-story homestead cabin is also available for guests. Guests of the same gender can expect to share rooms in separate beds.

China Bar Lodge

This lodge is located on China Bar at the mouth of beautiful Lemhi Creek. It is clean and rustic with a “tree house” feel about it. Delicious family style meals are served in the main lodge or on the deck overlooking the Salmon River. The lodge does not have inside flush toilets for environmental reasons. Bathroom facilities are outhouses. There is a shower in each cabin and a porta potty for use indoors during the night. There are two cabins, each with two bedrooms, which accommodate four guests on cot - style beds with comfy foam pads, sleeping bags, and liners. The living area in each cabin also accommodates guests, although according to owner Mike McLean, many folks elect to take their cots outside to sleep under the stars.

Mackay Bar Lodge

This ranch is near the mouth of the South Fork River on the Main Salmon. Mackay Bar Ranch has some of the most modern facilities in the canyon. Electricity is provided by hydroelectric with a back-up propane generator. Couples can expect a private room with private bath. Large groups with single participants may expect to share a room with same-gender companions. There is a main lodge for dining and relaxation. Facilities range from motel-type rooms with private baths to cabins with a queen bed and three singles. All have private baths.

Weather

Idaho weather can be variable and vigorous. So come prepared with **warm and cold weather** clothing. There is no such thing as bad weather if you bring the right clothing. Synthetics are best for layering and keeping you warm in all weather conditions. Weather during the daytime is 75-95F and evenings 40-60F, depending on the weather. All May/June and Sept trips are typically cooler at night and you must bring warm gloves, ski hat and long underwear synthetic bottoms.

We Supply

- Sleeping bag (rated 20-35F)
- Thermarest sleeping pad and Ridgerest Pad- ~2” total
- Pillow
- Raingear (jacket and pants)
